# Complete your EGCS basic training online

**8** participants max.

**3** days duration

**2** daily quiz

**1** final test

## Online delivery means flexibility, less travel and lower cost

The Exhaust Gas Cleaning Systems online training provides a cost effective and flexible way to acquire actionable knowledge about Ecospray's EGCS.

**How it works** The online course can be attended through simple internet connection, eliminating time and travel costs. The course provides three live and interactive modules led by experienced lecturers.

**Who should attend** Specifically designed for Superintendents and onboard personal like Chief Engineers and 1<sup>st</sup>/2<sup>nd</sup>/3<sup>rd</sup> Engineers.

**Extensive Content** Obtain a comprehensive understanding of EGCS, from regulatory and design point of view to maintenance and control operations.

**Takeaways** Participants achieve deep understanding of regulations and procedures to comply with IMO SOx emission limits, together with the tools needed to successfully manage and operate their Exhaust Gas Cleaning System.

**What's Next?** Superintendents and onboard personnel can benefit from Ecospray's hands-on training: available at EStC- Ecospray Training Center, it covers topics like maintenance and testing.

## Course Agenda

### day 1

1. EGCS Overview
2. Regulations and Compliance

### day 2

1. Water Analysis Rack & Compliance Equipment
2. Gas Analyzer
3. EGCS Safeties

### Educational material

Procedures and Pocket Guide are provided at the end of the course, together with full access to Ecospray's training web portal.

### E-learning certificate

The participants are fully supported during the online lessons and provided with an E-learning Certificate after completion of the course and successful scoring on the final test.

### Hands-on training

A separate on request module that allows participants to exercise with real components and simulate real-life cases thanks to an EGCS scale replica.
